

ABOUT THIS PROPERTY

Since 1938, the County Administration Center has stood on the San Diego Bay welcoming residents and visitors alike, symbolizing the highest aspirations and ideals of public service.

Constructed in 2014, Waterfront Park is the most significant waterfront open space in downtown San Diego and fulfills a vision decades in the making, slating it as a quintessential destination for residents and visitors.

The existing historic landscape and landmark County building form the park’s center while interactive fountains extend from the building and into the park, defining a large civic green.

The north end of the park offers an off-leash dog area, pickleball and basketball courts, table tennis, and an outdoor exercise station. The south end of the park features a large playground, reservable picnic areas, chess table, and a bocce ball court. Waterfront Park offers a variety of spaces suitable for being active or relaxing and can host events of all sizes, from small private gatherings to large community festivals.
