2. MEETING FORMAT (COUNTY)
   County of San Diego Joint Staff Member Juliette Orozco asked CAC members for input on in-person versus hybrid meetings for future CAC meetings. It was established that CAC members must attend in person unless they have a qualifying reason under state law.
Members discussed that a hybrid meeting type would allow for members of the public to participate. This was not a voting item.

3. UPDATE ON EMERGENCY SHELTER (CHULA VISTA)
Joint Staff Member Harold Phelps provided an update on the Emergency Shelter project. Along with photos showing construction progress, Mr. Phelps mentioned that the shelter would have 66 units and bathrooms with showers. He also spoke to the need to remove a tree, planter, and two parking spaces in the trails staging area adjacent to the site. CAC member Joan Schneider asked if there would be safe parking spaces available for people to be able to habitate in their vehicles, and who would be managing the facility. Mr. Phelps said he would bring those questions to City of Chula Vista staff Angelica Davis for a response at the next CAC meeting.

4. UPDATE ON EAST OTAY TRAIL ALIGNMENT STUDY EIR (COUNTY)
Joint Staff Member Juliette Orozco gave an update on the East Otay Trail Alignment Study Environmental Impact report. She mentioned that the project was currently in the NOP Scoping period which runs from January 6, 2023 through February 21, 2023, and that the Scoping meeting was held on January 12, 2023 via zoom. She let the group know that the County is soliciting feedback currently on what resources under the California Environmental Quality Act the committee would like to see analyzed. A link and mailing address were provided to the committee to submit feedback. A link was also provided to access the final study.

5. CALTRANS UPDATE ON I-805 BRIDGE (CALTRANS)
CalTrans Staff Member Ramon Martinez gave an update on the status of the bicycle bridge along I-805 between Palm Avenue and Main Street. Mr. Martinez provided a presentation that included project background and history, project goals, project layout, elevations, and cross-sections, and discussed the two project variations. The variations include a hanging bridge and a multi-span bridge. Mr. Martinez provided information on the project webpage and comment period. John Zarem asked whether Caltrans was weighing variation preferences in comment letters. Mr. Martinez advised to include preferences within comment letters, as all public input is considered in the decision-making process.
6. CAC LETTER TO CALIFORNIA DEPT. OF TRANSPORTATION ON I-805 BRIDGE (CAC CHAIR) (ACTION ITEM)

CAC Chair John Zarem and Vice Chair Susie Murphy led the discussion on the group’s decision to sign a letter to submit during the public comment period for the CalTrans 1-805 bicycle bridge project. There was discussion among all members of the CAC present on which variation was preferred, along with concerns regarding the possibility of the bridge attracting homeless encampments. Rick Richardson brought up the hanging bicycle bridge at Batiquitos Lagoon, and Caltrans Staff Member Ramon Martinez clarified that this design would not be similar to the Batiquitos Lagoon hanging bicycle bridge. Chair John Zarem and Vice Chair Susie Murphy both mentioned that the CAC members had previously voted on which variation they were supporting, which was reflected in the letter.
