

OFF-HIGHWAY VEHICLE PARK FEASIBILITY STUDY

OUTREACH FACT SHEET

OVERVIEW

The County of San Diego Department of Parks and Recreation is conducting a feasibility study to determine an optimal location for the County's first off-highway vehicle (OHV) park.

We need your help to identify a site for an OHV park which will be convenient and safe for OHV users while minimizing impacts to the environment. This project will focus on protecting and reducing impacts to environmental resources while meeting the County's goal of reducing greenhouse gas emissions.

The study will include steps focused on site and market analysis. Each step incorporates a series of activities designed to provide information and gather feedback from stakeholders and community members. Your participation is integral to the success of this project.

For more information please visit:

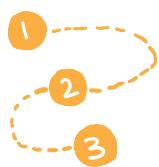

<https://www.sdparks.org/content/sdparks/en/AboutUs/Plans/ParksImprovementPlan.html>

Examples of existing OHV parks that protect and conserve natural resources may be found at:
https://ohv.parks.ca.gov/?page_id=1170

OUTREACH GOALS

- Provide opportunities for the public to learn, ask questions, and give input.
- Integrate stakeholder and community engagement during the planning process so that public input can meaningfully inform the selection of potential OHV park sites.
- Discuss analysis criteria used to narrow down the potential sites in the OHV Park Feasibility Study.
- Build positive and productive relationships with stakeholders and community members.

PROCESS

Outreach activities will take place from Fall 2022 to Fall 2024, as shown in the table below, to allow the community to inform the selection of potential park sites. Please note that the dates and times are subject to change. Please check the San Diego Parks and Recreation website for updates.

| Step 01 | Step 02 | Step 03 | Step 04 | Step 05 | Step 06 |
|--|--|--|---|---|--|
| Launch Project <i>Fall 2022</i> | Early Information Collection and Draft Criteria <i>Winter 2022/23 and Spring 2023</i> | Tier 1 Analysis <i>Summer 2023</i> | Tier 2 Analysis <i>Fall 2023 and Winter 2023</i> | Identification of Primary Sites <i>Winter 2023/24</i> | Preparation of Feasibility Study <i>Spring 2024 and Summer 2024</i> |
